Update History

December 2008: link additions and corrections to version 1.1. Available via Humboldt Digital Scholar: http://hdl.handle.net/2148/401

Version 2.0 includes corrections, revised links, deleted entries (strikethrough), and new entries (listed in red) and reflects rankings in the Top American Research Universities, 2008 Annual Report. For version 2.0, three institutions newly-ranked in the 2008 report were reviewed for lecture content:

- Scripps Research Institute
- University of Massachusetts Medical School, Worcester
- University of Hawaii, Manoa

Seven institutions (six of which are listed in the bibliography) dropped out of the top 50 ranking in 2008:

- College of William and Mary
- New Mexico State University, Las Cruces (not listed)
- Tulane University
- University of Cincinnati, Cincinnati
- University of Delaware
- University of Massachusetts, Amherst
- University of Oregon
Rationale

This selective bibliography, intended principally for librarians, provides information on university and other web sites in the United States offering online, on-demand public lectures.

It is hoped that this bibliography and subsequent research will encourage librarians to add more of this freely available material to library and union catalogs, where it may compliment scholarly material in other formats.

This bibliography is the first of a two-part research project. The second part will focus on questions related to the cataloging of online public lecture materials:

- How many lecture series in this bibliography are available through WorldCat?
- What level of cataloging is appropriate for lectures?
- Given current developments in OPAC and portal search technology, what should be done to make this material more accessible?

Criteria for Listing

The institutions listed in the first version of this bibliography were drawn from the *Top American Research Universities, 2007 Annual Report* issued by the Center for Measuring University Performance (available at [http://mup.asu.edu/](http://mup.asu.edu/)).\(^1\) The revised version has been updated to reflect institutions newly-ranked in the Center’s *2008 Annual Report*.\(^2\)

*Top American Research Universities, 2007 Annual Report* lists “Top American Research Universities” for 2007 on pages 8 and 10, identifying “the 51 institutions (26 private, 25 public) that rank in the top 25 nationally on at least one of the nine measures” and “the 37 institutions (10 private, 28 public) that rank 26 through 50 nationally on at least one of the nine measures.”\(^3\) The nine measures are described briefly on page 7.

*Top American Research Universities, 2008 Annual Report* lists universities ranking in the top 25 nationally on pages 6-7 and universities ranking in the top 26-50 nationally on pages 8-9.

\(^3\) There are 38 institutions, not 37, in the 26-50 ranking.
Nearly all of the universities surveyed in this bibliography provide on-demand access to public lectures. Public lecture content was not found for the following universities listed in the 2007 report:

- Cornell University Weil Medical College
- Mount Sinai School of Medicine ([http://www.mountsinai.org/Education/School%20of%20Medicine](http://www.mountsinai.org/Education/School%20of%20Medicine))
- New Mexico State University, Las Cruces ([http://www.nmsu.edu/](http://www.nmsu.edu/))
- University of Texas Southwestern Medical Center ([http://www.utsouthwestern.edu/](http://www.utsouthwestern.edu/))

Public lecture content was not found for the following institutions listed in the 2008 report:

- Scripps Research Institute ([http://www.scripps.edu/e_index.html](http://www.scripps.edu/e_index.html))
- University of Massachusetts Medical School, Worcester ([http://www.umassmed.edu/index.aspx](http://www.umassmed.edu/index.aspx))

For version 2.0 of this bibliography, deleted entries were retained and appear with strikethroughs. The intent is to provide some indication of how often names, descriptions, and links change.

A separate section lists U.S. web sites that aggregate university lectures or list university lecture sites. This section of the bibliography is not intended to be exhaustive but to demonstrate the various methods used to present public lectures.

The focus of this bibliography is on public-lecture series offered by universities but also referenced are lecture materials that derive from symposia, colloquia, conferences, seminars, and workshops. Curricular or course lectures may be accessed through numerous sites listed in the bibliography; these represent a distinct and large category of lecture material that deserves to be considered on its own.

**Sources and Research Dates**

The initial research for this bibliography was conducted between June 4 and July 11, 2008. Follow-up searching was done in July and August 2008 to verify links, replace links, provide additional examples, and locate additional lecture content. For version 2.0, revisions, corrections, deletions (strikethrough), and new entries (listed in red) were completed September 2009 through January 2010.

Internet search engines (primarily Google) and search tools on university web sites were used to identify on-demand public lectures in audio-only or video format. While time limitations have not permitted an exhaustive listing of every lecture or lecture series
available, the prominent lectures series – those that rise to the top of a university’s site search or Google’s search results – were identified and listed.

Searching revealed that universities present public lecture materials in various ways. A number of universities offer an aggregating, central site for locating video and audio (e.g., MIT, the University of Washington, the University of Pennsylvania). Some universities consolidate their materials using the iTunes U service (e.g., Duke, Stanford) or a podcasting page (e.g., the University of Utah). Some university departments post lecture materials on a departmental lecture site. Many universities highlight on-demand lecture content through news or current events listings. No effort has been made to provide a complete representation of institutions listing on aggregators such as iTunes U, YouTube EDU, and Research Channel.

Each entry in the university section of the bibliography lists the name of the university, the name of the site providing the most direct access to the on-demand material, and site URL. When a lecture series is associated with a university as a whole, it is listed under the name of the university; when associated with a department, it is listed by department. Most web site descriptions are taken from the web sites. Examples of videos are listed to give a sense of the quality of the material that is available.

Public lectures are sometimes available through institutional repositories. A few lectures from repositories are listed in this bibliography but no systematic effort has been made to search repositories associated with the listed institutions.

The section devoted to sites aggregating material from multiple universities includes separate sections for commercial and non-commercial sites.
Aggregating Lecture Sites

**Commercial Sites**

**Busitalks beta**
http://www.busitalks.com/ (20100111)
A well-organized site that includes viewer-rated videos from academic, broadcast, and corporate sources. See also Govtalks, Humtalks, and Scitalks.

**delicious**
http://delicious.com/ (20091019)
Description from web site:
“Delicious is a Social Bookmarking service, which means you can save all your bookmarks online, share them with other people, and see what other people are bookmarking. It also means that we can show you the most popular bookmarks being saved right now across many areas of interest.”
http://delicious.com/help/learn (20091019)
This social bookmarking site can be searched to locate popular lecture sites.

**FORA.tv**
http://fora.tv/ (20100114)
FORA.tv partners with numerous academic institutions. The partner list is accessible at:
http://fora.tv/partners

**Free Science Videos and Lectures**
http://www.freesciencelectures.com/
Site lists both course and public lecture videos. Supersedes a blog, Free Science and Video Lectures Online!, available at: http://freescienceonline.blogspot.com/

**FreeVideoLectures.com**
http://freevideolectures.com/index.html
Primarily course-related lectures, this site also includes some public lectures. Description from web site:
“We are small team from Bangalore, INDIA. Working hard for bringing free educational videos to everyone. We only ask one thing of you: that you share these resources with others so that, together, we can bring free education to all.”

**Govtalks beta**
http://www.govtalks.com/ (20100111)
A well-organized site that includes viewer-rated videos from academic, broadcast, and corporate sources. See also Busitalks, Humtalks, and Scitalks.

Humtalks beta
http://www.humtalks.com/ (20100111)
A well-organized site that includes viewer-rated videos from academic, broadcast, and corporate sources. See also Busitalks, Govtalks, and Scitalks.

iTunes U
As of August 8, 2008, 71 colleges or universities were using the iTunes service to present lectures and other materials. As of January 13, 2010, 249 institutions were using the service. Requires free Apple software for access.

Lecturefox - Free University Lectures
http://www.lecturefox.com/
Description from web site blog:
“Lecturefox is a free service. You can find high-quality classes from universities all over the world. We collect without exception lectures from official universities, and we have a special interest in lectures from the faculties [in] physics, chemistry, computer science and mathematics. In the category “faculty mix” you can find miscellaneous lectures from other departments like electrical engineering, biology, psychology, economics, history and philosophy.” http://www.lecturefox.com/blog/about

TED, Ideas worth spreading
Talks List
http://www.ted.com/talks (20091019)
Description from web site:
“TEDTalks began as a simple attempt to share what happens at TED with the world. Under the moniker ‘ideas worth spreading,’ talks were released online. They rapidly attracted a global audience in the millions. Indeed, the reaction was so enthusiastic that the entire TED website has been reengineered around TEDTalks, with the goal of giving everyone on-demand access to the world’s most inspiring voices.”
http://www.ted.com/pages/view/id/5 (20091019)
The site features many lectures by academics.

Openculture
University & College Podcasts - Free Educational Podcasts
http://www.oculture.com/2006/10/university_podc.html
Openculture offers a list of colleges and universities that offer lecture content through iTunes or via the Web. Posted on October 2, 2006, the list is a one-time list of 42 colleges or universities in the United States and abroad.
Users of this site are invited to contribute content. A site map provides an overview of available content. On August 8, 2008, subjects with the most content were medicine (402 lectures) and computer science (944 lectures). On January 13, 2010, subjects with the most content were medicine (845 lectures) and computer science (1676 lectures).

Description from web site:
“Public University Online is a university based on public online lectures worldwide, a university open to anyone. Please feel free to search our university site to see if you can find any inspiring lectures or following discussions. Attending is free of charge, based on principles of transparency and the sharing of knowledge for the good of mankind.”

A well-organized site that includes viewer-rated videos from academic, broadcast, and corporate sources. See also Humtalks, Govtalks, and Busitalks.

Description (via campustechology.com):
“In the same vein as YouTube, SciTalks.com (Boston, MA) has launched a searchable online collection of science lecture video files from across the world. Currently [as of 07/11/2007] 1,000 lectures are online, with new videos being added daily. Access to the site is free; users need only establish a username and password. From there they can upload their own video, submit links to new lectures for listing on the site, search for upcoming conference, create a collection of favorite videos, and share that collection with others.”

A list of links to 69 sites mapped on Google maps.

A short list of lectures in various subject areas.

Many universities have a presence on YouTube and provide access to academic lectures through this free video streaming service.

Description from WorldCat record:
“YouTube EDU, launched in March 2009, aggregates thousands of free lectures from over a hundred universities across the United States, including MIT, Stanford, UC Berkeley, UCLA, Yale, amongst others. YouTube EDU lets viewers sort clips by school or number of views, and the schools offer content ranging from complete courses to campus events to information for prospective students. Also, over 200 lecture-based courses in literature, history, law, engineering and other subjects are offered in their entirety through the site.”
http://www.worldcat.org/oclc/375581284&referer=brief_results

Yovisto
http://www.yovisto.com/
Description from web site:
“Yovisto is a video search engine specialized on educational video content. It is helpful for students or common interested peoples to looking for online lectures and educational video. Yovisto allows searching within videos. Furthermore, there are many other features as, e.g., tagging, adding comments, discussing uploading videos and organizing your videos, etc.”
http://www.yovisto.com/help.jsp
A tab for lectures can be selected. Few U.S. universities are listed in Yovisto (13 were represented as of September 2009).

Non-Commercial Sites

Academic Earth
http://academicearth.org/
Description from web site:
“Free video courses from leading universities.”

Backdoor Broadcasting Company

Academic Service
http://backdoorbroadcasting.net/academic-service/ (20091110)
Description from web site:
“The Backdoor Broadcasting Company’s Academic Service specializes in web-casting academic conferences, symposia, public lectures, workshops and seminars in order to further the dissemination of academic research. To make this service as cheap and as efficient as possible, we broadcast audio (sound) only, and with limited interactivity.”

Internet Archive

Welcome to Open Educational Resources
http://www.archive.org/details/education
Description from web site:
“Welcome to the Archive’s library of Open Educational Resources and university lectures. This library contains hundreds of free courses, video lectures, and supplemental materials from universities in the United States and China. Many of these lectures are available for download.”

The Internet Archive includes an educational resource page permitting searches by mediatype: education. Also available: a page archiving Princeton’s UChannel Public Affairs Lectures. [http://www.archive.org/details/ucpublicaffairslectures](http://www.archive.org/details/ucpublicaffairslectures)

**Jurist**

**Law School Video Lectures**
[http://jurist.law.pitt.edu/live.htm](http://jurist.law.pitt.edu/live.htm)

Description from web site:
“JURIST presents video (and some audio) webcasts of major law school lectures, conferences, panels, debates and special events.”

**Multimedia Resources for Academics**
[http://itsinfo.tamu.edu/handouts/multimedia-resources-for-academics.pdf](http://itsinfo.tamu.edu/handouts/multimedia-resources-for-academics.pdf)

This online bibliography produced by Texas A & M includes a two-page listing of significant lectures, symposia, workshops, etc. (last modified 08 Mar 2007).

**Research Channel**

**Video Library**

Offers access to more than 3,500 titles in various disciplines.

Description from web site:
“ResearchChannel was founded by a consortium of leading research and academic institutions to share the valuable work of their researchers with the public. ResearchChannel is now available to more than 30 million U.S. satellite and cable television subscribers and our Web site is visited by more than 1.6 million visitors each year. The channel is also available on 70 university and school-based cable systems in the United States and in other countries.”

“ResearchChannel was founded by a consortium of leading research and academic institutions to share the valuable work of their researchers with the public. ResearchChannel is now available to nearly 38 million satellite and cable television subscribers and our Web site is visited by 2 million visitors each year. The channel is also available on more than 80 university-and school-based cable systems in the United States and in other countries.”

**Videolecture.net**

This well-designed site features lectures on numerous subject. As of August 7, 2008, 171 events, 3140 authors, 3406 lectures, and 4878 videos were represented, the major focus being computer science, with 1347 items. As of January 13, 2010, 319 events, 5862
authors, 6694 lectures, and 9227 videos were represented, the major focus being computer science, with 1911 items.

**UChannel**

http://uc.princeton.edu/main/index.php?option=com_frontpage&Itemid=1
http://uc.princeton.edu/main/ (20090817)

UChannel is also available via YouTube: http://www.youtube.com/uchannel

Description from web site:
“The UChannel (also known as the University Channel) makes videos of academic lectures and events from all over the world available to the public. It is a place where academics can air their ideas and present research in a full-length, uncut format. Contributors with greater video production capabilities can submit original productions. [...] While it has unlimited potential, the UChannel begins with a focus on public and international affairs, because this is an area which lends itself most naturally to a many-sided discussion. [...] The UChannel project is an initiative of Princeton University's Woodrow Wilson School of Public and International Affairs, which is leading the effort to build university membership and distribution partners.

Example:

Harvard University, Berkman Center for Internet & Society

Interactive
http://cyber.law.harvard.edu/interactive
Description from web site:
“The Berkman Center's Interactive collection features conversations with and talks by leading cyber-scholars, entrepreneurs, activists, and policymakers as they explore topics such as: the factors that influence knowledge creation and dissemination in the digital age; the character of power as the worlds of governance, business, citizenship, and the media meet the Internet; and the opportunities, role, and limitations of new technologies in learning. All Berkman events, including conferences, luncheon series talks, and most meetings, are webcast then archived here, along with unique productions like the Citizen Media Law Project podcast and episodes of Berkman.tv. A selection of the archive is also available on Berkman's YouTube channel.”

http://web.ics.purdue.edu/~cho19/riskcomm.html

Rice University, George R. Brown School of Engineering

Undergraduate Lecture Series
http://cohesion.rice.edu/engineering/Engineering/engineering.cfm?doc_id=8805
Description from web site:
“The undergraduate lecture series is designed primarily for an undergraduate audience, covering topics from the creativity of engineering and science to entrepreneurship, ethics, and the advantages of pursuing an advanced degree. Speakers are drawn from industry and academia. Each lecture lasts approximately 50 minutes and is followed by a question and answer session and a reception honoring the speaker. The series was established in October 2002. Our goal in establishing this lecture series is to bring undergraduate engineering and science majors into the culture of attending lectures for professional development. We wish to challenge researchers and industry participants to convey to the students why they love whatever it is they do. The series is designed to introduce undergraduates to broad concepts in research and innovation.”

http://as.tufts.edu/1161609857819/Arts_Sciences-Page-Arts_Sciences_Level2_Template_New_Wide_With_Sidebar_1162394051412.html

Description from web site:
“Every semester, Dean Sternberg sponsors a Dean's Faculty Forum that features the research and scholarship of faculty members from Arts and Sciences. The Forum is structured with a lecture by one faculty member on a particular topic followed by commentary from a faculty discussant. The most important aspects of the Dean's Faculty Forum are that it appeals to a broad audience and gets people excited about the scholarship being done at Tufts. All of our previous events have certainly achieved this, and we are excited to continue this program.”

Examples:

Tufts University, School of Medicine

Annual Jeffrey M. Isner, M.D. Endowed Memorial Lecture
A single lecture is available:
2007 Isner Lecture: Dr. Judah Folkman

University of California, Berkeley

Berkeley on iTunes U.
http://itunes.berkeley.edu/
Google video
http://video.google.com/ucberkeley.html
Description from web site:
“The content on this page—drawn from campus seminars, courses and events—is just one part of UC Berkeley’s commitment to the broadest possible dissemination of knowledge for the benefit of our state, the nation and the world.”
webcast.berkeley
http://webcast.berkeley.edu/events.php?p=1&ipp=1000&&category=&sponsorid=
A complete archive of webcasts, from 2002 forward, is available via the webcast.berkeley site (also available via YouTube).

University of California, Berkeley, Bancroft Library

California Lecture Series
http://bancroft.berkeley.edu/info/audiolectures.html
A series of lectures originally broadcast in 2002 and 2003.
Description from web site:
“The Bancroft Library is pleased to present a series of seven lectures of California history, first recorded before a live audience in its Edward H. Heller Reading Room on the University of California, Berkeley campus and broadcast on KQED FM.”

University of California, Berkeley, Library

California Colloquium on Water
http://www.lib.berkeley.edu/WRCA/ccow.html
Description from web site:
“The popular lecture series, the California Colloquium on Water, continues. Scholars of distinction in the fields of natural sciences, engineering, social sciences, humanities, law and environmental design will offer monthly lectures. These lectures are designed to increase the understanding and appreciation among students, faculty and the general public of water resources and to contribute to informed decisions about water in California.”
Media Resource Center
http://www.lib.berkeley.edu/MRC/ (20091014)
Description from web site:
“The Media Resources Center (MRC) is the UC Berkeley Library’s primary collection of materials in electronic non-print (audio and visual) formats. These formats include: videocassettes, DVDs; compact audio discs; audiocassettes; and online (streamed) audio and video. The MRC collection is intended to support the broad range of study and research interests on campus. There are particularly strong holdings in humanities and social sciences materials, as well as a broad range of general interest materials in the fields of science and technology.”

http://www.lib.berkeley.edu/MRC/about.html (20091014)

University of Texas at Austin

GRASP Lecture Series
http://www.ma.utexas.edu/users/benzvi/GRASP.html
Description from web site:
“GRASP is a new lecture series at the University of Texas at Austin, which is aimed at bringing some of the fundamental concepts and big picture of the GRASP areas to a wider audience (the intended target audience are beginning graduate students). These lectures will be digitally recorded and disseminated by streaming video, audio, and lecture notes through this website, with the goal of establishing an electronic resource for students (and others) wishing to be introduced to the GRASP subject areas. (The plan is for the website to also contain links to survey articles, scanned notes, and other helpful information.) The speakers are selected based in part on their ability to communicate fundamental ideas at a basic level to a broad audience.”

KNOW > Video > Guest Speakers
http://www.utexas.edu/know/video/guestspeaker/ (20100113)
Description from web site:
“Distinguished speakers from around the world take the stage at the university. When you can't be there in person, listen in here.”

**Texas Politics Speaker Series**
http://www.laits.utexas.edu/txp_media/pr/speaker_series.html (20091125)
Description from web site:
The Texas Politics Speaker Series brings to the UT campus people from across the political spectrum and from all levels of government to discuss compelling political and policy issues. Speakers and topics are selected to engage students and the public, while providing insight into how the political process works.”

**University of Texas at Austin, Department of Physics**

**Physics Public Lecture Videos**
http://www.ph.utexas.edu/movies/
Description from web site:
“This site provides access to various UT Physics Lecture Series presentations.”

**University of Texas at Austin, Environmental Studies Institute**

**Hot Science - Cool Talks, Outreach Lecture Series**
http://www.esi.utexas.edu/outreach/lectures.html
Description from web site:
“This program allows leading researchers to communicate their research to the public, and in particular to the K-12 community. The talks are educational experiences with interactive activities, lively discussion, and a live webcast.”

**University of Texas at Austin, School of Law**

**Video Archive**
http://www.utexas.edu/law/about/videos.html

Engaging the Mind
http://www.virginia.edu/engagingthemind/index.html
http://hoosonline.virginia.edu/site/c.epI/KXODJG/b.4970103/k.BD09/Home.htm (20090806)
Description from web site:
“Coordinated by the Office of Engagement, the University of Virginia’s Engaging the Mind lecture series shares the educational life of the University with alumni, parents, and friends. This faculty lecture series offers an opportunity for faculty to share their research and expert knowledge with lifelong learning audiences throughout Virginia and across the country.”

“Coordinated by the Office of Engagement’s Alumni Education program, Engaging the Mind shares the educational life of the University with alumni, parents and friends. This program offers faculty lectures and online learning experiences.”

History of the Health Sciences Lecture Series
http://www.hsl.virginia.edu/historical/lectures.cfm (20090915)
Description from web site:
The Claude Moore Health Sciences Library sponsors the annual History of the Health Sciences Lecture Series as an educational service for the University of Virginia Health System and interested citizens in the community. The Library hopes that the speakers and topics selected will promote a greater understanding of the historical and philosophical underpinnings of today’s health care disciplines.

**The Last Lecture**
Description from web site:
“The Last Lecture Series is an annual tradition at the University of Virginia, providing a forum for distinguished faculty members to lecture to students as if it were their last time to do so. The content of the lectures varies, ranging from emotional to entertaining. But they are always moving and inspiring.”

**Podcasts & Webcasts**
Description from web site:
“It’s hard to keep up with everything happening at U.Va. Here you will find lectures, speeches and other events of interest to the University community. Listen to them now, download them for later or subscribe to our podcast and take them with you.”
The category Academic Lectures can be chosen:

**UVA Newsmakers**
Description from web site:
“UVA NewsMakers is a public service program that features talks by notable speakers and scholars who are either on the faculty or visiting the University of Virginia.”

**University of Virginia Health System, Center for Biomedical Ethics and Humanities**

**Medical Center Hour**
Description from web site:
The Medical Center Hour is the School of Medicine’s weekly forum on medicine and society. Produced by the Center for Biomedical Ethics and Humanities in partnership with Historical Collections of the Health Sciences Library, our series now includes History of the Health Sciences Lectures.
Also accessible via YouTube: [http://www.youtube.com/user/UVAMCH](http://www.youtube.com/user/UVAMCH)
